Professional Summary

Ambitious and results-oriented Web Developer with hands-on experience in building scalable, real-world applications, including a Smart Inventory and Asset Management system. Skilled at transforming complex requirements into intuitive, high-performing user experiences. Currently gaining industry exposure through an internship, with a strong focus on continuous learning, adaptability, and delivering impactful solutions in fast-paced environments.

Education

Bachelor's of Technology, Computer science and Engineering GIFT Autonomous, Bhubaneswar, Odisha, India.	2022 – 2026
Intermediate Mohan Subudhi Higher Secondary College, ,Odisha.	2020 – 2022

Technical Skills

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend Development: React.js, Tailwind CSS, Responsive Web Design, Context API, React Router, Axios, DOM Manipulation

Backend Development: Node.js, Express.js, REST APIs, CRUD Operations, JWT Authentication

Database: MongoDB, Mongoose

Developer Tools & Platforms: Git, GitHub, Visual Studio Code, Postman, Google Colab, Jupyter Notebook, Vercel, Netlify

Core Concepts: API Integration, Authentication & Authorization, Responsive UI Development, State Management

Projects

E-Commerce Shopping Website

Tech Stack: HTML5, CSS3, JavaScript (ES6+), DOM Manipulation, Local Storage, Responsive Design

- Built a responsive e-commerce website with product listing, search, and add-to-cart functionality.
- Implemented cart persistence using Local Storage to enhance user experience.

Social Media Web Application

Tech Stack: React.js, Tailwind CSS, Axios, React Router, Context API, JSON Server

- Developed a social media platform with post creation, editing, and deletion features.
- Managed state using Context API and handled API calls using Axios.

Smart Inventory and Asset Management System

Tech Stack: React.js, Tailwind CSS ,Axios, React Router, Context API, JSON Server

- Developed a web-based system to manage and track inventory and assets efficiently.
- Designed responsive dashboards for monitoring asset allocation and usage.

Retail AI Shopping Web Application

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Axios, React Router, JWT Authentication

- Developed a full-stack AI-powered e-commerce platform with secure user authentication, product management, shopping cart, and order management features.

- Built responsive customer and admin dashboards, integrated REST APIs, and implemented inventory, pricing, and product management modules using the MERN stack.

Certifications and Achievements

- **NPTEL Certifications (IIT Kharagpur):** Industrial IoT 4.0, Cloud Computing
- **AI/ML Internship (2 Months):** CTTC, Bhubaneswar – Gained hands-on experience in Machine Learning fundamentals and data handling
- **Programming Fundamentals (2 Months):** IIG Varsity – Strengthened problem-solving and core programming concepts
- **MERN Stack Intern (6 Months – Present):** Mindbrain Innovation Pvt. Ltd. – Developing real-world web applications using React.js and modern technologies

Work Experience

Frontend Developer

April 2026 – Present

Mindbrain Innovation Pvt. Ltd., Bhubaneswar, Odisha

- Developed responsive and user-friendly web applications using React.js, JavaScript, Tailwind CSS, and HTML/CSS.
- Built reusable UI components and implemented modern frontend architecture for scalable applications.
- Integrated REST APIs using Axios and collaborated with backend developers to ensure seamless data flow.
- Worked on inventory management, e-commerce, and admin dashboard applications with a focus on performance and usability.
- Fixed UI bugs, optimized application performance, and ensured cross-browser compatibility.
- Collaborated with designers and team members using Git and GitHub in an Agile development environment.
